OMG! it's CNG!

The PUNCH iCNG is powered by a 1.2L engine that offers incredible performance. The advanced iCNG technology delivers a perfect combination of power and pickup that is bound to make you go OMG! it's CNG!

INNOVATIVE **TWIN CYLINDER TECHNOLOGY**

What makes the PUNCH iCNG truly stand apart is the intelligent placement of the twin CNG cylinders below the luggage area that allows for a big boot space unlike any other CNG car.

LEAK **DETECTION**

The iCNG Technology immediately detects a gas leak and switches from CNG to petrol mode.

SINGLE **ADVANCED ECU**

For effortless shifting between CNG and petrol mode while maintaining higher fuel efficiency.

DIRECT START **IN CNG**

Quit switching modes manually. Start your vehicle directly in the CNG mode.

THERMAL **INCIDENT PROTECTION**

The iCNG Technology immediately cuts off CNG supply to the engine in case of thermal incident and releases gas from the cylinder directly into the atmosphere through a special nozzle as a measure of safety.

WHATEVER BE YOUR PERSONA, THE PUNCH VIBES WITH YOU
